## ALOHA CHD-HI SUBSCRIBERS!

It is with great pleasure that we welcome you to the CHD-HI ohana, and thank you for your interest in joining our mission. Starting up a nonprofit during an unprecedented, worldwide pandemic may not be the smartest move...but we felt a vital necessity, and are so grateful for your support. Hawai'i, like the rest of the world, is facing imminent infringements on our liberty and egregious endangerment to our health, such as experimental vaccine mandates, [vaccination passports](#), wireless radiation exposure, extreme big tech censorship, and a total surveillance state. The coronavirus pandemic has accelerated these efforts, yet at the same time it has served to awaken many to unseen truths and agendas. We will continue to raise awareness and form coalitions with other concerned Hawai'i groups, and manifest change through conscious policy-makers and legal pathways if necessary.

Let's show our children we did not stay silent and that a small group of passionate people can change the world. We are at a critical juncture for humanity with the proverbial line soon to be drawn in the sand - tyranny on one side and freedom on the other. The purveyors of a "new normal" are dark and powerful forces, but we have light, truth, and parents' love on our side. Let's create a future where people are valued over profit, health and human connection reign free, and ALOHA is greater than fear.

For our keiki,

*Kim Haine*

*President, CHD - Hawai'i Chapter*

## PROTECT OUR MOST SACRED AND FUNDAMENTAL RIGHT: BODILY AUTONOMY

# HAWAII'S MOST PRESSING ISSUES -- BILLS!

Hawaii's 31st Legislature opened on January 20, 2021 without the customary fanfare and citizen participation in the State Capitol Rotunda. Due to COVID-19 restrictions the Capitol is closed to in person meetings and testimony, however oral testimony will be accepted from all islands via ZOOM. Staying engaged and making an impact will be even more challenging than usual! We are following several bills this session, [find them on our ["Take Action" page at hi.childrenshealthdefense.org](#)] but we bring your attention to two *urgent action items*:

## ITEM #1

### SUPPORT HB241

***Public and private measures are being considered now which would require COVID vaccinations for participation in certain public activities and functions of daily American life.***

- This bill stops coercion and future mandates of experimental, liability-free COVID-19 vaccines
- HB241 prevents employer discrimination or unfair discriminatory practices that deny people equal enjoyment of goods, services, facilities based on invasive medical testing or

vaccination status

We recognize that our officials are charged with safeguarding public health by slowing the spread of infectious disease, but they also took a sworn oath to uphold the civil and constitutional rights of their constituents. One cannot be sacrificed or exchanged for the other. All persons reserve the right, at all times, to determine what is in their own best medical interest without threat to their livelihood or freedom of movement.

*Medical mandates have no place in a free society and violate free, prior and informed consent.*

# HAWAI`I'S MOST PRESSING ISSUES -- BILLS CONT'D

Both COVID-19 disease and COVID-19 vaccines carry known and unknown risk; therefore, no government, person, or entity should have the right to determine which risks citizens take, or dictate the invasion of our bodies to benefit others.

Pharmaceutical products or invasive medical procedures should never be forced, particularly not a “warp-speeded”, experimental mRNA gene-therapy which is free from liability for any harm it might cause - be it an adverse reaction, injury or death - and furthermore, which is admitted by the manufacturers to not stop person-to-person transmission.

#### BILLS TO THWART 5G ROLLOUT IN HAWAI`I

These companion bills authorize a tax audit of telecommunications carriers operating in the state of Hawai`i to identify past underpayments of taxes and require them to use generally accepted accounting principles rather than the outdated rules that deprive states and counties of their fair share of tax revenue. [see our website “Take Action” page for more information on this and other bills we’re watching this legislative session.]

Dr. Debra Greene, founder of [KeepYourPower.org](http://KeepYourPower.org) has joined forces with Children’s Health Defense - Hawai`i Chapter to educate the public on 5G and wireless radiation harms. Please avail yourselves of and share widely a [free mini course](#) on how to diminish harms of exposure in your home. Debra will be conducting free Zoom webinars on 5G and wireless. Find registration info and links to them on our [CHD-HI website Events page](#).

## COMING SOON: VIDEO ON COVID-19'S COLLATERAL DAMAGE TO YOUTH

CHD-HI is proud to have teamed up with [Heart and Soul Hawai'i](#) on a video project to bring attention to some of the young victims of COVID mitigation measures. Please watch and share their videos, which raise awareness of the suffering of indirect victims of COVID, and follow the great work of Heart and Soul Hawai'i! We will post the video on our website.
